## ABSTRACT

The course outlined in this curriculum guide, modified to fit the quinmester organization of schools, focuses on the role of the individual as a consumer. The aim of this elective, grades 7-9 course is to help the student develop sound decision-making habits for functioning more effectively in the marketplace and best fulfilling his role as a consumer. The guide is divided into: 1) a broad goals section; 2) a content outline; 3) objectives and learning activities; and, 4) recommended textual materials, audio-visual materials, and supplementary materials. Course content includes sections on: money, credit buying, banks, good buying practices, aides to buyers, advertising, and consumer deceivers. Related documents are: SO 002 708 through SO 002 718, SO 002 768 through SO 002 792, and SO 002 949 through SO 002 970.

## INTRODUCTION

This course of study was written as part of a total effort to revise curriculum to fit the quinmester administrative organization of schools. The materials and information in this guide are meant to be neither all-inclusive nor prescriptive; but rather, an aide to teachers as they plan instructional programs, taking into account student needs and characteristics, available resources, and other factors.

The major intent of this publication is to provide a broad framework of goals and objectives, content, teaching strategies, class activities, and materials all related to a described course of study. Teachers may then accept the model framework in total or draw ideas from it to incorporate into their lessons.

The guide is divided into 1) a broad goals section, 2) a content outline, 3) objectives and learning activities, and 4) materials. The first section provides descriptive and goal-oriented information for the teacher; "indicators of success" refers to suggested prerequisite or corequisite experiences. The content outline illustrates, in general terms, the scope and major subdivisions of the course. The objectives and learning activities section, hopefully, provides a total picture of the concept or main idea and specific behavioral objectives for a set of given learning activities. The materials section of the guide lists resources in four categories: essential textural or other material; alternate classroom materials to use in place of or in addition to the aforementioned; supplementary teacher resources; and supplementary student resources. The appendix may include other material appropriate for a specific course: e.g., pretests, readings, vocabulary, etc.

Anyone having recommendations relating to this publication is urged to write them down and send to: Social Studies Office, Room 306, Lindsey Hopkins, A-1.

## FOCUS

## OBJECTIVE

## LEARNING ACTIVITIES

3. Have a neighborhood businessman visit the class and speak on the topic, the bank's relationship to the businessman.

4. Show the film Money On the Move, 1-31173. Questions for discussion:

- a. What would happen if all banks would close?
- b. What could cause all banks to close?
- c. How can banks affect the economy by raising or lowering interest rates?
- d. What would happen if everyone decided to keep their money in a buried coffee can and not use banks?

Banks

1. The student will analyze the importance of banks to the individual.
2. Show the film Using Bank Credit, 1-00396. Ask the pupils if they feel there would be any difference in interest rates for the following types of loans:
  - a. Mortgage
  - b. New car
  - c. Used car
  - d. Personal
3. Compare the word collateral as used by a bank and used by a student, i.e., I.B.M. stock as collateral for a bank loan and a friend's frog as collateral between two students.
4. Show examples of how bank interest rates are more advantageous than small loan companies.
5. Have each student compute the interest he would receive if he put \$100.00 in a saving account at 4% compounded quarterly for one year.
  - a. Should everyone save?
  - b. What is the advantage of regular saving?

FOCUS	OBJECTIVE	LEARNING ACTIVITIES
Banks	<p>1. The student will compare the types of banks.</p> <p>2. Ask the students which type of bank would be best for the following:</p> <ol style="list-style-type: none"> <li>Savings accounts</li> <li>Checking accounts</li> <li>Mortgages</li> <li>Personal loans</li> <li>Automobile financing</li> </ol> <p>3. The three types of banks could be investigated by small groups of students with reports presented to the class. Students could visit the banks and interview a bank official.</p> <p>4. Arrange a field trip to one or two banks.</p>	<p>5. Issue to each student a check book. Discuss how a check is made out and a balance is kept.</p> <p>Issue to each student three pictures (newspaper or magazine) of items to be purchased by the student using his checking account. Attach to each picture a card telling the store from which it was purchased and the cost. Have the students write checks to pay for their purchases.</p> <p>6. Ask the students what advantages and disadvantages there are to having a checking account.</p> <p>1. On three separate days have a representative from a commercial bank, savings and loan bank, and a credit union come and speak to the class about the services offered by their establishment.</p>

**GOAL: THE STUDENT WILL GIVE EXAMPLES OF GOOD BUYING PRACTICES.**

FOCUS	OBJECTIVE	LEARNING ACTIVITIES
Good buying practices: Comparison buying Investigation before buying Sale buying Seasonal buying Warranty and guarantee investigation	A. The student will identify methods used to buy wisely.	<ol style="list-style-type: none"> <li>1. Assign groups to determine the characteristics to look for when buying different goods--assign two goods to each group.</li> <li>2. Collect and discuss warranties, guarantee, seals, labels, and tags.</li> <li>3. With the help of girls in the class, prepare samples of convenience foods--mixes, frozen, foods, canned foods, and compare them to the same foods prepared completely at home.</li> <li>4. Order from Sears Education Resource Series--ER4--<u>A Department Store in the Classroom</u>. Have the students shop for items in the store using good buying practices.</li> <li>5. Using the Sylvia Porter guide to seasonal buying, which can be obtained from the <u>Miami Herald</u>; have the students determine what time of the year would be best to buy different items. Why would the prices be lower or higher at different times of the year?</li> <li>6. Have pupils compare prices for different goods at the beginning of the week to the prices for the same goods listed in the <u>Miami Herald's</u> sale ads on Thursday and Friday.</li> <li>7. Explain the terms quantity buying and quality buying. Divide the class into two groups and have one group study the value of quantity buying and the other group study the value of quality buying. What different items would apply to each group?</li> <li>8. Have four groups of students visit garages, plumbers, doctors, and lawyers, and report on comparison of prices for services.</li> </ol>

FOCUS

LEARNING ACTIVITIES
